

VAL D'ISÈRE

Nestled in the heart of the Vanoise, **the resort of Val d'Isère is a gem** appreciated by mountain lovers.

An internationally renowned resort thanks to its unique ski area and **the authentic charm of its village, Val d'Isère : a mythical ski resort,**

The snow and the ski area are a must in Val d'Isère but what does make the difference is the village.

The baroque church, the cosy chalets... And the mountains all around. We call it "Magic!"

Wander **the illuminated streets** where the retailers will be glad to help you find exactly what you've been looking for.

Take your time, meet up with friends, walk down the main street and share a hot chocolate with your kids. **Share and enjoy the moments.**

Can you challenge the iconic Face de Bellevarde?

With its great views across the Alps and the village down below, it is a dream for many of you, Our advice : after a short warm-up, La Face is best tackled first thing in the morning when it has been freshly groomed. It's a real delight,
